05.05.2017

Field of activity

IT / Telecommunications

Department

Tasks

Lisbon Digital Tech Hub

At the beginning of May, Mercedes-Benz opened the world's first Digital Delivery Hub in the Portuguese capital. Lisbon is currently becoming the "place to be" in the digital world. The world's most important tech-conference, the Web Summit, has been held in Lisbon since last year, for example. Mercedes-Benz is involved as a main sponsor and with numerous well-regarded speakers. The Portuguese capital is a very popular place for "digital natives" to live and work and the scenario is perfect for the new Digital Delivery Hub of Mercedes-Benz. The national government and city council also plan to use this momentum to develop Lisbon into the next digital hotspot. The Portuguese authorities very actively assisted the founding phase of the new centre with minimal bureaucracy.

Until transfer you will be employed by our Portuguese company "Mercedes-Benz Portugal".

Daimler is one of the biggest car makers of the world. It owns Mercedes-Benz and Smart for instance but also other companies as MyTaxi and Car2Go.

Mercedes-Benz is opening a Digital Delivery Hub in Lisbon. The hub will be responsible to create digital marketing products and platforms worldwide.

The auto industry is living an exciting transformation period, from the electric car to the connect car and autonomous driving, there couldn't be a better time to work in this industry.

We are currently looking to hire senior and junior developers and designers in different areas.

Front End developer

As a front-end developer you will see the result of your work being used all over the world. Your profile:

- You are skilled in handling front end web technologies like HTML5, CSS, JavaScript and Frameworks like

Bootstrap, Foundation or Angular JS and you realize innovative, dynamic E-Commerce and marketing solutions.

- With your Know-How in responsive web design, content management systems, web services and web standards you develop frontends with state-of-the-art interface technologies for desktop and mobile devices.

- Ideally, you can use your existing knowledge in professional software development, SEO, User Experience and automatization to realize our frontend projects.

- Quality controls as well as ensured cross-browser compatibility reflect your conscientious and structured way of working.
