**05.05.2017**

Field of activity  
**IT / Telecommunications**

Department

### Tasks

#### Lisbon Digital Tech Hub

At the beginning of May, Mercedes-Benz opened the world's first Digital Delivery Hub in the Portuguese capital. Lisbon is currently becoming the "place to be" in the digital world. The world's most important tech-conference, the Web Summit, has been held in Lisbon since last year, for example. Mercedes-Benz is involved as a main sponsor and with numerous well-regarded speakers. The Portuguese capital is a very popular place for "digital natives" to live and work and the scenario is perfect for the new Digital Delivery Hub of Mercedes-Benz. The national government and city council also plan to use this momentum to develop Lisbon into the next digital hotspot. The Portuguese authorities very actively assisted the founding phase of the new centre with minimal bureaucracy.

Until transfer you will be employed by our Portuguese company "Mercedes-Benz Portugal".

Daimler is one of the biggest car makers of the world. It owns Mercedes-Benz and Smart for instance but also other companies as MyTaxi and Car2Go. Mercedes-Benz is opening a Digital Delivery Hub in Lisbon. The hub will be responsible to create digital marketing products and platforms worldwide.

The auto industry is living an exciting transformation period, from the electric car to the connect car and autonomous driving, there couldn't be a better time to work in this industry.

We are currently looking to hire senior and junior developers and designers in different areas.

**Software Engineer – Adobe AEM**

- We are looking for people with experience in Adobe Experience Manager to join our team. This is your profile.
- You are delighted by software development in projects with Adobe Experience Manager and Adobe CQ.
- Your tasks include conceptualization, consulting and implementation of developing components and applications as well as the integration of templates (including customer-specific extensions).
- Delight and expertise in programming characterize you – this includes especially JEE, HTML, CSS and JavaScript/AJAX .
- You offer experience with the product Adobe AEM/CQ and its common technologies like OSGI, JSON, JCR, CRX, Sling, Sightly, REST, Maven as well as profound knowledge in the area of complex client applications with current web browser technology.
- Preferably you already have the relevant certificates.
